SUMMARY

Software Engineer with 1+ year of internship experience developing production-grade web, mobile, and AI applications. Hands-on with React Native, Node.js, Python, and LangChain. Built and shipped 4 live products. Comfortable across the full stack — from REST API design and database modelling to CI/CD and cloud deployment. Actively exploring applied AI: RAG pipelines, LLM integration, and vector search.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), C++, Go, SQL

AI / LLM: LangChain, RAG, Generative AI, Prompt Engineering, OpenAI & Gemini APIs, TensorFlow, NumPy, Pandas

Frontend / Mobile: React.js, React Native, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, FastAPI, Django, REST API Design

Databases: MongoDB, MySQL, PostgreSQL, Redis, FAISS, ChromaDB

Cloud & DevOps: Docker, AWS (EC2, S3), Firebase, GitHub Actions, CI/CD, Vercel, Netlify

Practices: Agile / Scrum, TDD, Code Review, Git, Problem Solving, Team Collaboration

EXPERIENCE

Software Engineer Intern — Brixo Solutions Pvt. Ltd., Lucknow (On-site)

Aug 2024 – Present | React Native · Node.js · Firebase · REST APIs · Agile

- Developed 25+ React Native screens covering Vendor, Inventory, Operations, Vehicle, and Dashboard modules; enabled end-to-end billing, reporting, and CRUD workflows used daily in production.
- Introduced OTP-based auth and a guided onboarding flow that lifted sign-up completion by 18%.
- Cut perceived load time by ~30% through component memoisation, lazy loading, and response caching.
- Reviewed 20+ PRs in a 5-person agile squad; helped establish a shared component library and i18n translation structure.

PROJECTS

DocuMind — AI Document Q&A; System

Python · LangChain · RAG · FAISS · FastAPI · Docker · PostgreSQL

- Designed a RAG pipeline (LangChain + FAISS) that answers natural-language questions over user-uploaded PDFs, DOCX, and TXT files with source-cited responses.
- Containerised a FastAPI backend with Docker; endpoints handle document ingestion, chunk embedding, and streaming LLM replies via OpenAI / HuggingFace.
- Persisted multi-session chat history in PostgreSQL; used Pandas + NumPy for document chunking and preprocessing.

Portvia — Developer Portfolio Platform | portvia.vercel.app

React.js · GitHub API · Tailwind CSS · Vercel · CI/CD

- Full-stack portfolio builder with live GitHub project sync; auto-deploys on every push via GitHub Actions → Vercel.

Amala Bioceuticals — Corporate Website | amalabioceticals.in

React.js · Firebase · SEO

- Delivered a production marketing site with Firebase backend and scroll-triggered animations; measurably improved session engagement by 35%.

Eduavaa — EdTech Platform | eduavaa.me

Node.js · Express.js · MongoDB · JWT Auth · CI/CD

- Built course enrollment, secure JWT auth, and role-based access for a live e-learning platform; shipped with automated CI/CD pipeline.

Abhirent — Property Rental App | abhirent.netlify.app

React.js · Firebase · Google Maps API · Netlify

- Location-aware rental search using Google Maps API and Firebase real-time DB; deployed continuously via Netlify.

EDUCATION

B.Tech — Computer Science & Engineering | JSS Academy of Technical Education, Noida | 2022 – 2026 | CGPA: 7.91

Coursework: Data Structures & Algorithms, DBMS, OOP, Operating Systems, Computer Networks, Data Analysis

CERTIFICATIONS & ACHIEVEMENTS

- MERN Stack Development — Udemy | Python with Django — LogicPro Infosystem | Database Management with MySQL — Great Learning
- Deloitte Australia Data Analytics Virtual Experience — built a Tableau dashboard, performed forensic data analysis in Excel.
- Solved 200+ LeetCode problems (arrays, trees, graphs, DP) | HackerRank 30 Days of Code — Completed
